

CALL FOR APPLICATIONS - December 2022

Post-doctoral Position

Donostia International Physics Center (DIPC) is currently accepting applications for Post-doctoral positions. This is a unique opportunity for junior researchers with a recent PhD degree in Physics or related fields to join one of DIPC's high-profile research teams. A description of each of the available openings, contact information and deadlines can be found on the following pages.

Although candidates are welcome to contact the project supervisors to know further details about the proposed research activity, please be aware that the application will be evaluated only if it is submitted directly to the email address listed as "application email".

Applications received by the deadline will be evaluated by a Committee designed by the DIPC board on the basis of the following criteria:

- CV of the candidate (40%)
- Adequacy of the candidate's scientific background to the project (40%)
- Reference letters (10%)
- Other: Diversity in gender, race, nationality, etc. (10%)

Evaluation results will be communicated to the candidates soon after. Positions will only be filled if qualified candidates are found.

The DIPC may revoke its decision if the candidate fails to join by the appointed time, in which case the position will be awarded to the candidate with the next highest score, provided it is above 50 (out of 100).

However, the selected candidate may keep the position if, in the opinion of the Selection Committee, the candidate duly justifies the reasons why he or she cannot join before the specified deadline, and as long as the project allows it.

Ref. 2022/81
Postdoctoral position in Cosmology

Supervisor(s):
Raul Angulo (reangulo@dipc.org)
George Smoot (gfsmoot@lbl.gov)

Duration*: 2+1 years

Application Deadline: 15/12/2022

Application Email: jobs.research@dipc.org

We seek a motivated person broadly interested in tests of the standard cosmological model. Applicants with expertise in strong and weak gravitational lensing, CMB, neutrino cosmology, or the distribution and abundance of galaxies as cosmological probes are particularly encouraged to apply.

The successful applicant will join the Astrophysics & Cosmology group at the DIPC and is expected to work together with Prof. Raul Angulo, Prof. George Smoot, and Prof. Tom Broadhurst in collaborative projects.

Interested candidates should submit a CV and a brief statement of interest to the application email listed above. Candidates should also arrange for 3 reference letters to be sent to the same address. The reference of the specific opening to which the candidate is applying should also be stated in the subject line.

***The initial duration of the contract is two years. The extension for a third year will depend on the performance and availability of funds**
